ABOUT OSI:

Open Systems Integrators, Inc., (OSI) is an integrated technology provider of enterprise-class physical security solutions. At OSI, we design and install standards based, open platform, industry-leading systems that solve the most challenging modern security issues.

Since 1999, OSI has been driving the implementation of network-based video surveillance, access control, life safety, and sound & communication systems. Our carefully selected product lines allow us to deliver high functioning, cohesive, flexible security solutions.
LICENSED. SDA APPROVED.

As a state contract vendor, OSI is able to offer additional cost-savings for education and government entities through state contract #PT65348.

Licensed by the New York State Department of State License #12000289907
CERTIFICATIONS:
NICET Level IV/ NFPA Member
CTS I&D / UL Certification
Fire Alarm License #34BF001800
Electrical License # 34EB01420300

INTEGRATED SECURITY SOLUTIONS

IP VIDEO MANAGEMENT SYSTEMS - MANAGED NETWORK INFRASTRUCTURE

- Mega-Pixel High Definition Video Including 4K Imaging
- Video Analytics – Intelligent Event Recording
- Android & iOS Mobile Applications
- Future-proof Scalable Solutions
- Many Network Video Recording Options

ENGINEERED SYSTEMS

- 100+ Years In-House Experience
- Open Architecture / Software-based Solutions
- Return-on-Investment / Future Proof Design
- Seamless Integration across all Platforms
- Solutions-based Needs Assessment

ACCESS CONTROL/VISITOR MANAGEMENT

- Identify, Authenticate & Authorize
- Biometric / Smart Card / Bluetooth Readers
- ID Credential Center & Badging Creation / Printing
- Non-proprietary Open Architecture Hardware
- Easy Retrofits using Existing Field Devices
- Hosted, Cloud-based Systems Available

SERVICE & MAINTENANCE

- Custom Service & Maintenance Agreements
- Factory Certified Technicians
- 24/7 Systems Service Available

INTRUSION DETECTION & MONITORING

- Perimeter / Interior Wired & Wireless Systems
- 24/7 Central Station Monitoring
  Land / Cellular / Ethernet
- Access Control Software Integration
  Opening & Closing Reports

MASTER CLOCK SYSTEMS ANALOG/DIGITAL

- Constant Time Correction via Internet or GPS
- Synchronized Facility Time Systems
- Custom Clock Dials with Facility Logo

DOOR HARDWARE

- Electro mechanical locking hardware
- Mechanical locking hardware
- Exit Devices
- Auto Door Openers
- Door Closers

INTERCOM & PAGING EMERGENCY AUDIO MESSAGING

- Networked / District-Wide / Facility / Zone Paging
- Emergency Classroom Check-in Buttons
- Emergency Lock-down Systems Integration
- Seamless Integration with VoIP Phone Systems

FIRE DETECTION & MONITORING

- Intelligent Addressable Fire Alarm Systems
- Digital / Analog – Voice Evacuation / Emergency Communications
- 24/7 Central Station Monitoring – Land / Cellular / Ethernet
- UI Listed / Nicet IV Certified Company
- NFPA Inspections
